PRODUCT DATA SHEET

Q8 Axle Oil XG 80W-140
Advanced SAE J2360 axle fluid

Description

Q8 Axle Oil XG 80W-140 is a high performance synthetic fluid providing excellent durability and performance for rear axles and final drives. This product provides extended drain intervals, thus reduces overall operating costs and vehicle maintenance. It meets the performance credentials of SAE J2360 and the requirements of top European OEMs and component manufacturers such as Scania and ZF.

Applications

Q8 Axle Oil XG 80W-140 is recommended for use in rear axles and final drive applications and is approved by Scania to use with extended drain intervals up to 180,000km. It meets the requirements of SAE J2360, top European OEMs and component manufacturers such as ZF.

Benefits

• Outstanding protection against wear and extends component life.

• Outstanding axle wear protection.

• Outstanding protection against rust and corrosion.

• Outstanding elastomer compatibility
